

LASSEN MUNICIPAL UTILITY DISTRICT
RATE SCHEDULES 6050 AND 6051
OUTDOOR AREA LIGHTING SERVICE

APPLICABILITY

Applicable to all customers for outdoor lighting. Service furnished from dusk to dawn. Utility owned lamps and luminaires will be supplied from utility's overhead and underground circuits. Lights will be mounted on utility owned poles, or on customer owned service pole acceptable to the utility, subject to the discretion of LMUD.

TERRITORY

The entire territory of LMUD.

Code	Per Lamp Per Month

OUTDOOR AREA LIGHTING SERVICE

SPECIAL CONDITIONS:

1. This service will be in accordance with District Electric Service Policy and utility specifications as to equipment, installation, maintenance and operation. Maintenance will be preformed as soon as practicable after notification of problem, subject to the utility's operating schedules. Credit for outages will not be given.
2. This schedule is not applicable to municipal or other public lighting authorities for street lighting use.
3. Area light will be relocated at the expense of the customer
4. Area lights installed on or along City, County or State Highways will require approval from the appropriate agency having jurisdiction to insure the light will not be a traffic hazard.
5. Underground and overhead service will have a non-refundable conductor charge as outlined in the District's Electric Service Policy.
6. If underground service is requested, the customer will provide trenching and backfill, including all cost for paving, conduit and other related expenses where applicable.
